Total number correct from Auditory Processing Test _____ X 10 = _____

Total number correct from Code Knowledge Test _____ X 2 = _____

Total score of the above four tests _____ divide by 4 = _____

Enter the above total score in the grade your child is currently in, or if it is summer, the grade your child is entering in the next school year.

1st grade	score X 1.10	_____
2nd grade	score X 1.05	_____
3rd grade	score X 1.0	_____
4th grade	score X .95	_____
5th grade	score X .95	_____
6th grade	score X .90	_____
7th grade	score X .90	_____
8th grade or older	score X .90	_____

Interpretation of Scores:

90 or above indicates a readiness for the reading material your child will encounter in her current or upcoming grade.

89 or lower indicates that your child is not ready for the reading material she will encounter in her current or upcoming grade.
